TRAP-SEAL

FOR FLOOR / DRAIN WASTES

Suits 100mm Pipes

**ORDER
NOW**

Stops poisonous / toxic sewage gases, and odours from being released into the building.

Blocks insects from travelling up the drain or waste pipe, and into the building.

Aids in preventing the build-up of suds.

Aids in preventing water evaporation from floor drains.

Helps mitigate backflow.

Patent Pending Design

An innovative design based on a human heart valve that only allows the flow of water and waste in one direction.

Australian patent application No. 2021232792 | Australian Registered Design No. 202015116
